Job Description

Nature and Scope

- **Contacts:** This position interacts regularly with Associate Chairs and administrative staff in the Department of Physics and Astronomy, Institute for Quantum Computing, the Perimeter Institute, and the University of Guelph, the Faculty of Science, as well as the University Graduate Studies and Postdoctoral Affairs Office, Student Awards and Financial Assistance, Student Success Office, Waterloo International, Human Resources, and Finance. The Administrator is responsible for developing and maintaining excellent working relationships with all these areas in order to guide, recommend and influence internal processes related to graduate studies.

- **Level of Responsibility:** This position has specialized work with minimal supervision. This position requires a high degree of knowledge of University policies and procedures as well as the admission and degree requirements. This position is instrumental in leading and implementing new initiatives to meet operational goals.

- **Decision-Making Authority:** The incumbent must be able to make decisions independently, determine priorities, and will constantly be required to make discretionary judgments. Any issues beyond the scope of the above outlined responsibilities would be escalated to the Department Chair or Director/Associate Chair, Graduate Studies.

- **Physical and Sensory Demands:** Demands typical of an administrative position with management responsibilities within an office environment. Long periods of sustained attention and concentration to verify accuracy and completeness of various academic data and compiling information from various sources. Minimal exposure to disagreeable conditions typical of a supervisory position. Must possess mental fortitude and patience in cross-cultural and inter-personal relations.

- **Working Environment:** Some overtime may be required during peak periods. Busy and noisy office environment. This role involves psychological risk resulting from unavoidable exposure to disagreeable situations and deals with people who are upset, frustrated or angry, in crisis, or with people who have mental health concerns. Works with confidential academic information, which may involve personal or health issues requiring sensitivity and tact. Responds to high volume of competing demands and people with varying needs. Provides information or explanations that may not be well received by the recipient. There may be ambiguity of situations and shortcomings in data, and some internal clients may be demanding, may request breaking policy, and some situations may require escalation.
