

Job Description

Job Title:	Manager, Web Development
Department:	Information Systems & Technology
Reports To:	Director, Departmental and Campus Applications
Jobs Reporting:	Client Support Assistants, Client Support Specialists, Computing Consultants, Senior Computing Consultants
Salary Grade:	USG 14
Effective Date:	February 2021

Primary Purpose

The Manager is accountable to the Director, Departmental and Campus Applications, for the management of the people, technology, and processes that provide service to the University, within the Manager's unit and areas of expertise, as well as actively participating in that service. The Manager must work closely with other managers to coordinate implementation of projects not specific to any one manager's area of expertise.

The Web Development area includes:

- o WCMS Development and Support
- o Web Development (e.g. Student Portal)
- o Open Data

The Manager is responsible for management of the staff and technical infrastructure of the Web Development area, reporting to the Director, Departmental and Campus Applications. The unit is staffed by client support assistants, client support specialists and consultants.

The position requires that the Manager possess planning and leadership skills, communication and presentation skills, and ability to effectively manage the tasks and responsibilities, within their respective areas of responsibility.

The Manager must have technical expertise at the highest Consultants' level (USG 12/13) and must be prepared to spend significant effort in technical initiatives, in addition to management duties.

The Manager must establish and maintain the respect and confidence of the IST management team and of those responsible for related facilities and services in academic and academic-support units throughout the university, where applicable, and must work closely with them to support their efforts. The Manager must take the initiative in evaluating relevant new technologies and working with IST and client-constituencies management to exploit these opportunities. The Manager must be familiar with, comply with, and promote the University's policies related to information systems and technology.

The Manager has on-going responsibilities for unit supervisors and assigned staff, including the assignment of work, provision of direction, performance reviews, and recommendations for hiring, promotions, reclassifications, and disciplinary issues. The Manager must exercise tact and diplomacy in directing the work of professionals and allocate their assignments so as to create a productive work environment and career opportunities. The Manager co-operates with the rest of IST management on general issues of IST staffing, career paths and staff mobility within and among groups, the establishment

Job Description

of procedures and standards, monitoring staff performance and focusing staff efforts on University goals in response to changes in technology, the university environment, and IST priorities.
