Job Description

**Job Title:** Associate Director, Treasury  
**Department:** Finance  
**Reports To:** Director of Finance  
**Jobs Reporting:** Investment Analyst, Insurance Analyst, Tax & Compliance Analyst  
**Salary Grade:** 15  
**Effective Date:** August 2018

**Primary Purpose**

The Associate Director, Treasury manages the University’s Treasury operations including managing the University’s short and long-term cash requirements, investing operational funds, ensuring appropriate controls and guidance are in place related to Treasury matters and acting as one of the University’s banking signing authorities. The Associate Director, Treasury also provides oversight for the functional areas of tax and insurance.

**Key Accountabilities**

- Manage the University’s Treasury operations
  - Manage cash flow requirements considering working capital and capital project expenditures and liquidity of funds
  - Invest operational funds within the framework established by University policies and procedures
  - Act as a banking signing authority on behalf of the University
  - Manage the University’s bank account structure
  - Review, define and recommend the payment methods used for incoming and outgoing payments
  - Identify and recommend new financial services available from the University’s banks and other financial services providers. Work collaboratively with other groups within Finance and other areas of the University as required to implement new financial services.
  - Ensure appropriate policies, procedures and guidance are in place related to Treasury matters
  - Ensure an appropriate control framework is in place related to Treasury activities
  - Manage online banking and online accounts related to other financial services providers including ensuring that appropriate security is in place
  - Coordinate the execution of written instructions to investment managers for the trust, the endowment and the pension for investment transactions as approved by the appropriate signing authorities and Board committees
  - Implement business process improvements to achieve efficiencies and to leverage technologies. Stay up to date with emerging technologies and services in the Treasury area with a view towards continuous improvement
  - Review any external debt requirements; analyze and make recommendations on external debt options if required; establish procedures related to the University’s internal financing program
### Job Description

- **Manage relationships with the University’s banks and other financial services providers**
  - Manage relationships with the University’s domestic and foreign banks and other financial services providers including brokerages, investment managers, custodians, foreign payment service providers, payment processors who enable accepting payments by credit and debit cards, payment gateways and an armoured car service provider
  - Review the ongoing performance of these service providers
  - Coordinate new account implementation and new service and product implementation with each service provider
  - Ensure that contracts with banks and other financial services providers are appropriate and up to date; work with the appropriate groups at the University to take these services to the market with RFPs for these services at appropriate intervals

- **Review and monitor investment performance and complete accounting and reporting on investments and endowments**
  - Monitor and review investment performance; prepare or review regular recurring as well as ad hoc reporting on investment performance that is provided to senior management and relevant Board committees
  - Review and complete accounting for the University’s investments and the annual distribution of investment income for endowments
  - Oversee the preparation of and detail review the annual financial statements for the registered pension plan; liaise with the external auditors of the pension financial statements
  - Provide recommendations to senior management related to investments in the trust and endowment funds and in the registered pension plan

- **Provide management oversight and support for the functional areas of tax and insurance**
  - Provide oversight for the University’s insurance program which is supported by an Insurance Analyst, including ensuring that appropriate insurance coverage is in place to cover the University’s assets and business activities
  - Provide oversight for the University’s tax requirements which are supported by a Tax and Compliance Analyst, including ensuring that the University maintains tax compliance and that the University claims the tax recoveries that it is entitled to
  - Guide the University’s PCI compliance processes and ensure timely reporting of our compliance to the University’s payment processors
  - Ensure that the Finance team provides helpful, timely, practical, risk-based guidance on insurance and tax matters to the University community

- **Provide leadership and direction for team members**
  - Manage the hiring and performance of team members
  - Provide team members with direction, support, and professional development opportunities
  - Ensure appropriate cross training is in place for all critical functions

- **Other**
  - Act as a member of the management team responsible for developing and implementing the strategic direction of the Finance team
  - Promote a culture of continuous improvement in terms of efficiencies and leveraging financial systems capabilities and new technologies
  - Collaborate effectively with other functions to achieve University objectives
  - Continuously investigate Treasury management issues and industry trends in order to maintain a high level of quality in Treasury operations
  - Participate in other department and University projects and assignments as required
