

Job Description

Job Title:	Associate Director, Maintenance
Department:	Plant Operations
Reports To:	Director, Maintenance and Utilities
Jobs Reporting:	Maintenance Supervisors, Building Section Supervisors
Salary Grade:	USG 13/14
Effective Date:	January 2020

Primary Purpose

The Associate Director, Maintenance provides senior leadership and direction to a group of tradespeople from across multiple functional areas. This position functions as a technical specialist and leads in the coordination of cross-disciplinary and compliance-oriented maintenance activities for the University campus, facilities and infrastructure, while collaboratively contributing towards providing a safe, accessible, invitingly clean, comfortable, and well-maintained campus environment.

Key Accountabilities

Strategic Planning

Assists with and supports the department's strategic planning efforts addressing stewardship responsibilities and long-term sustainability of the University's campus, facilities and infrastructure and maximizing opportunities for efficient delivery of campus services and optimal investments in University- wide infrastructure.

Operations and Project Management

Participates in a multi-disciplinary operations project team, providing leadership and technical support in the design and delivery of ongoing maintenance programs. While primarily focusing on activities related to life safety, code and regulatory compliance, responsibilities include other preventive / predictive programs that involve multiple functional areas across the facility to assist with removing barriers to achieving the overall objectives of the department and University.

- Provides leadership, quality assurance, code compliance oversight and technical guidance to the Supervisors and tradespeople within the department, as well as campus client groups.
- Analyzes existing building systems and operations, identifying enhancements to processes and procedures.
- Reviews maintenance schedules with client groups and works to mitigate impacts on ongoing campus activities.
- Prepares reports recommending improvements to building systems and implements improvements to existing systems.
- Develops Requests for Proposals / Quotations and tender documents related to contracted maintenance activities.
- In compliance with University procurement policies and broader public sector guidelines, advertises, evaluates, awards and administers contracts for service, repair and capital improvement work.
- Acts as the Project Manager for identified capital repair and renewal projects.
- Assists with short- and long-term campus and facilities planning, supporting the departments' strategic and operational direction.
- Assists with the development of energy and cost-conscious design, maintenance, and operation
